	Examiner Sandra Snapp	Art Unit 3624	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

The Examiner acknowledges that the Applicant has claimed priority to provisional applications 60/226,419, filed 8-18-00 and 60/248,546, filed 6-14-01.

Claim Objections

Claim 1 is objected to because of the following informalities: the term “perform” in the third line should actually be “performer.” Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite because the term “substantially” is vague. It is unclear exactly what the metes and bounds of the claim are when the term “substantially” is used.

Claim 2 is indefinite because it depends from rejected base claim 1.

Claim Rejections - 35 USC § 101

Claims 1-2 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 1-2 are directed to non-statutory subject matter because they lack any recitation of technology in the body of the claims, which is required in order to meet the statutory requirements. The Patent Office had taken the position that some form of technology must be claimed in the body of the claim. The Board of Patent Appeals and Interferences has stated that claims lacking any technology are “nothing more than [an] abstract idea which is not tied to any technological art and is not a useful art as contemplated by the Constitution.” *Ex parte Bowman*, 61 USPQ2d 1669, 1671 (Bd. Pat. App. & Inter. 2001) (Unpublished). While it is understood that the Bowman case is not precedential, it is cited herein for its content and reasoning. The Examiner suggests inserting some claim language directed to a computer to overcome this rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by the Mottola patent (US 5,745,885).

The Mottola reference discloses a method of managing risk in a security that is based on the prospective income of a performer, the method comprising:

Art Unit: 3624

Defining an asset value based on the prospective income of the performer, the asset value defining a security value (col. 3, lines 40-58 and col. 13, lines 32-56),

Defining a minimum acceptable final valuation (col. 9, lines 1-52),

Establishing a first account (col. 15, lines 1-23), and

Receiving into the first account funds in an amount substantially equal to or greater than the minimum acceptable final valuation (col. 15, lines 1-23) (Claim 1); and

The minimum acceptable valuation is equal to the asset value (col. 9, lines 1-52) (Claim 2).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Kossovsky, Kincart, Llewelyn, Quackenbush, Birle, Wilkinson, Slyke, Mottola, Ashenmil, Elliott and Selleck patents are all directed to various types of electronic financial systems.
